

# Artificial Intelligence Collaboration Conference **Dubai**

**25th October 2023**

Grand Excelsior Hotel  
Bur Dubai

Powered by:

tensaX™ Innovation Lab

# About the Conference

---

Artificial  
Intelligence  
Collaboration  
Conference

Dubai

Artificial Intelligence Collaboration Conference is dedicated to exploring the latest advancements and applications of Artificial Intelligence (AI) technology across different industries and sectors. The conference aims to bring together leading experts, researchers, practitioners, academicians, and enthusiasts to exchange knowledge, ideas, and experiences related to AI.

The conference will be held at the Grand Excelsior Hotel, Dubai on October 25, 2023. The one-day event will feature keynote speeches, technical presentations, and knowledge sharing covering a wide range of topics related to Artificial Intelligence (AI). Attendees will have the opportunity to learn about the latest research trends, best practices, and real-world applications of AI in various domains.

Attendees will also have the opportunity to network with other AI enthusiasts and professionals from around the world. The conference will provide ample opportunities for networking, including a welcome reception, a coffee break, and a networking open session.

## Be a Speaker at Artificial Intelligence Collaboration Conference

We are always looking for knowledgeable and experienced speakers to share their insights and expertise. We are particularly interested in presentations that focus on real-world applications of Artificial Intelligence, innovative use cases, and emerging trends and technologies. We also welcome presentations that explore the ethical, legal, and social implications of AI technology.

### The Organiser: TensaX Innovation Lab

TensaX Innovation Lab is a cutting-edge research and development facility dedicated to advancing the field of artificial intelligence (AI) and machine learning (ML). TensaX is staffed by a team of world-class engineers and researchers who are passionate about pushing the boundaries of what is possible with AI and ML.

At TensaX, our primary focus is on developing innovative solutions to complex problems across a wide range of industries and applications. Our areas of expertise include computer vision, natural language processing, robotics, and automation, among others. We work closely with our clients to identify their needs and develop customized AI and ML solutions that deliver real value and impact.

Our lab is equipped with state-of-the-art hardware and software tools, as well as a comprehensive data infrastructure that enables us to collect, store, and analyze large volumes of data. We use a variety of ML techniques, including deep learning, supervised learning, and unsupervised learning, to build intelligent systems that can learn from data and make accurate predictions. One of the key strengths of TensaX is our ability to collaborate with other organizations and researchers.

# Detailed Programme

2:30 PM – 3:00 PM	Registration and welcoming of delegates
3:00 PM – 3:15 PM	Inauguration and Welcome Speech
3:15 PM – 3:40 PM	Speaker -
3:40 PM – 4:05 PM	Speaker -
4:05 PM – 4:30 PM	Speaker -
4:30 PM – 5:00 PM	Networking Tea/Coffee break
5:00 PM – 5:20 PM	Speaker -
5:20 PM – 5:40 PM	Speaker -
5:40 PM – 6:30 PM	Speaker -
6:30 PM – 7:00 PM	Networking Open Session

## Topics

- Collaborative learning with deep neural networks
- Federated learning and edge computing
- Explainable AI for collaboration and decision-making
- Natural language processing for collaboration and communication
- Computer vision for collaborative robotics and automation
- Data privacy and security in AI collaboration
